

TB/Mantoux Test Instructions

The following TB/Mantoux tests are acceptable:

Two-Step: This is a skin test in which the injection is made then you are required to go back to the clinic to have it read within 48 to 72 hours. In 7-21 days you must repeat this process! If you do not follow through on this process you will be charged \$18 for each unread/incomplete test.

Quantiferon Gold Blood Test: This blood test would need to be ordered through your primary doctor, paid for through your own health insurance and is a one-time blood draw. You will be reimbursed up to \$36 with proof of co-pay. B's Homecare Inc will NOT authorize billing to our account for this method.

- We have an account with Allina so any Allina clinic will do. If for any reason an Allina clinic is not accessible to you, we will reimburse up to \$36 of the cost of a two-step through another clinic or up to \$36 with proof of co-pay.
- Call Allina Occupational Health Cambridge clinic: 763-688-7777 or Coon Rapids Occupational Health 763-236-1210.
- Clinics must fax results to 763-689-1170 but please keep the copy you receive incase we do not receive results via fax.
- We will need a copy of your first step results before you can start work.
- If going through Allina Occupational Health, please present this form as it gives you authorization to receive the two-step through us.

*** _____ is authorized to receive their two-step Tb/Mantoux test through B's Homecare Inc account***
